## **BLOOMFIELD REFERENDUM QUESTIONS 2014**

Shall lowa County continue to provide nursing home care for the residents of lowa County?

Shall Iowa County support a new facility for Bloomfield Healthcare & Rehabilitation Center?

## **ADMINISTRATION**

## Memo

To: Committee on Committees

From: Curt Kephart, Administrator

Date: 8/4/2014

Re: Clarifying 2014 Goals for County Administrator

To assist the Committee on Committees in clarifying goals for the position of County Administrator I offer the following suggestions:

- 1. Presentation of an analysis and options for the Classification and Compensation Study Report within 30 days of their submission of a final report.
- 2. Present to the Administrative Services Committee a proposed policy on reducing annual budget carryovers, identifying specific budget methods, and projecting long term budget strategy in the FY 2015 Budget presentation in fourth quarter.
- 3. Prioritize priority tasks on daily calendar and delegate more routine items to other staff or departments allocating more time for projects of highest priority and advise CoC monthly on status of priority projects.
- 4. Present to the Administrative Services Committee a draft of a consolidated and updated Employee Handbook in the first quarter of 2015.

Each of the above goals must be identified in the S.M.A.R.T. process which represents Specific, Measurable, Attainable, Related, and Time bound.

	15 Budget				
<b>Measurement:</b> Present a proposed b	palanced budget to the	e County Board for the	September meeting for adoption in November.		
Status Update:  Departments have been advised that the County continues to be limited in the amount of money it can raise through the tax levy. Estimates at this time are approximately .5% which will translate to approximately a maximum county-wide increase of appropriates of about \$50,000. Departments are to look at priorities and evaluate essential mandated versus non-mandated programs. Finance and Administrator will begin meeting with Departments in late July and Department presentations to Committees on budget should happen in August and September. In recent Committee meetings the Committee has granted requests to increase funding for various projects which individually does not represent a lot of money but any increases during a time of decreasing revenue spells trouble for the budget without program prioritization. We are at a crossroads, we need Board program priorities to set budget goals and justify saying no or yes.

	omfield Referen	dum			
Measurement:  Proposed language for a fall referendum question to determine the direction for Bloomfield Healthcare and Rehabilitation Center.  Status Update:  In a meeting with the Corporation Counsel, Nursing Home Administrator, and a representative of the Bloomfield Strategic Task Group the following language was drafted as meeting the standards of a compliant and clearly worded referendum question: "Should Iowa County be authorized to raise the County Tax levy to construct and operate a new Bloomfield Healthcare and Rehabilitation Center?" This wording a) comports to legal requirements, b) notifies the public that a new facility is being contemplated, c) asks for authority to raise the tax levy d) may be revised in committee.
