PROCEEDINGS OF THE JUNE SESSION OF THE BOARD OF SUPERVISORS OF IOWA COUNTY, WISCONSIN

June 21, 1968

The Board of Supervisors met in session at the Courthouse at 7:30 P.M. on Friday, June 21, 1968 and was called to order by Honorable Richard Scullion, Chairman of the Board.

Roll Call was taken. All members reported present as seated at the April 1968 Session with the exception of Sup. Springer and Grunow.

----O----

An explanation for calling a Friday night session was given by the Chairman. The primary reasons being the need for early action on matters to be brought before this meeting and other earlier dates considered already taken by meetings.

----O----

The Chairman stated the first order of business to be brought before the Board was a watershed matter and further explained that the Public Service Commission had held a hearing concerning Cave Hollow (9C) Otter Creek Watershed. The hearing regarded a dam to be built as a part of a recreational project for the Highland, Cobb area. The obliagtion for maintenance of the dam proved to be the determining factor in approval. The Public Service Commission would not approve the construction unless the matter of maintenance was better defined.

At the hearing the Chairman stated that he believed the Board of Supervisors did not fully understand the maintenance and replacement requirements and therefore suggested that the Board be made aware of this obligation. The matter of replacement obligation is then the reason for the subject being returned to the Board for discussion.

Sup. Grunow reported present.

Chairman Scullion requested that the Clerk read the various resolutions previously acted on and regarding the Otter Creek Watershed as a summary to date.

Sup. Springer reported present.

The following resolutions were read to the Board:
No. 20, January 1966 Session, No. 30, January 1964 Session, No. 33, October 1963 Session.

Mr. Curt Lindholm of the State Water & Soil Conservation Service addressed the Board relative to operation and maintenance of structures to be installed in Otter Creek Watershed Area.

Mr. Lindholm explained the general planning of all watershed dams as sufficient to withstand a 100 year rainfall which is considered to be 12" in 6 hours. This has never been recorded in Wisconsin.

Many questions regarding the matter of costs, planning and liability were addressed to Mr. Lindholm. He indicated that the replacement obligation as discussed here would not be retroactive to all watershed structures in the County. This apparently is the first time the PSC has questioned the replacement obligation. The federal government has not agreed to accept replacement expense.

As the discussion continued it was evident that as the Chairman had suspected several members of the Board were not aware of the local obligation for replacement costs. Action on the part of the county must be taken at this time so that the Highland Cobb Recreation Commission will know whether or not an application for aid funds can be made.

Attorney John N. Kramer, representing the Highland Cobb Commission addressed the Board and explained some of the legal aspects of the matter. He stated that the same obligation was in the past assigned to the county even though it might not have been known. It is

not a new obligation but in the past was evidently only strictly enforced when dams were constructed by private owners.

The county has obligations in all matters in which it participates and liability is an increasing subject. It is probable that the people would look to the Federal Government for assistance in replacement costs but there is no guarantee of funds.

Mr. Kramer further stated that the law is poorly written and it is difficult to read. The county would probably be able to offer a good argument that responsibility for replacement was not applicable. It is probable that there will be no more private lakes in Wisconsin because a private enterprise must place sufficient funds in escrow to guarantee replacement.

----O----

Resolution (No. 1) relative to Iowa County Soil & Water Conservation District representing Iowa County Board of Supervisors be responsible to carry out, operate and maintain all structural works of improvement, installed under PL-566 as amended in said watershed was read.

WHEREAS the Iowa County Soil and Water Conservation District recognizes the need to control and reduce flood water, erosion and sediment and realizes the need for conservation, development and utilization, and is aware of the recreational potential, and

WHEREAS, the Iowa County Board has agreed by Resolution No. 22, dated 1962 as supporting the Otter Creek Watershed, and

WHEREAS, the Iowa County Board did appropriate $70,000 over a five year period for project costs (Resolution No. 20 dated 1965),

NOW, THEREFORE, be it resolved that the Iowa County Soil and Water Conservation District, representing the Iowa County Board of Supervisors, be responsible to carry out, operate, and maintain all structural works of improvement installed under PL-566, as amended, in said watershed.

Existing water and sanitary sewer systems maps indicating the general layout of existing water and sewer systems in the planning area identifying wells and other sources, reservoirs, treatment plants, pumping stations, major mains, interceptor lines, lagoons and outfall facilities. Area of service will be shown.

Water and sanitary sewer system plans will be prepared and will include the following:

1. Maps indicating the proposed facilities required for the immediate needs (to 1975) and separately indicating those facilities which will be needed to meet projections to 1990. The plans will show major

Request (No. 15) of elective officials was read.

To The Honorable Board Of Supervisors

We the following County Officials have been informed that at a recent meeting of the Bonds & Salaries Committee, salaries have been recommended for the elective County Officers for the next term of office.

We note that an increase of $2,000 per year has been recommended for one of the elective offices while an increase of only $600 per year has been recommended for the other three offices in the Courthouse.

We feel that this vast difference in salaries for elective official is not justified and ask that the Bonds & Salaries Committee or the Iowa County Board of Supervisors re-consider.

We do not feel that we have been given fair consideration and ask for a comparable increase for our offices.

It is not our intention by making this request that we jeopardize in any way the office or official getting the larger recommended increase.

Also you may wish to refer to the April 1968 issue of Wisconsin Counties for comparison of salaries for all Counties in the State as of October 31, 1967, Pages 12 & 13.

A general discussion on the cost of the project, the need for the project and the source of the funds to finance it was held.

Sup. Hicks suggested that some funds should be borrowed.

Sup. Holland suggested a compromise by the borrowing of some funds and the use of some of the General Fund surplus.

Chairman Scullion stated that he believed the question at this time was whether or not the job should be done and whether or not the Board believed that the plans presented were adequate and reasonable for the present and proposed future use.

Sup. Hicks moved that the resolution be adopted.

Seconded by Sup. Holland.

Sup. Branger stated that the plan did not appear to provide adequate planning and questioned the action at this time.

Chairman Scullion replied that the Board had rejected an addition to the building and it was questionable whether or not an addition should be built due to the cost of matching the existing building and that it might be better to provide additional space if ever needed by the construction of an annex but that the Board had apparently agreed on this plan and on that basis the Committee has requested bids.

Sup. Hicks requested a roll call vote. The call was made for the question.

Roll Call Vote (No. 4) was taken. Ayes: 18, Hogan, Kritz, Pechan, Scullion, Niebuhr, Peterson, Eichorst Hicks, Holland, Scheidegger, Stenseth, Swenson, Ryan, Demuth, Harris, Julian, Roelli, Grunow; Noes: 2, Branger, Springer.

Resolution adopted.

Sup. Holland moved that the matter of final financing be referred to the Finance Committee for a recommendation and that a transfer of funds from the General Fund to the Courthouse Outlay Account to provide a sufficient fund to cover the cost of the approved contracts be made at this time.

Sup. Peterson seconded the motion.

Roll Call Vote (No. 5) was taken. All members voted aye. Motion carried.

A communication (No. 6) from the office of the Attorney General regarding alleged price fixing against various steel companies was read. The question was whether or not the proposed law-suit would apply to purchases by Iowa County. After a discussion which included the question of costs to Iowa County, Sup. Hicks moved to refer the matter to the Highway Committee for their recommendation.

Sup. Grunow seconded the motion. Carried.

Sup. Kritz moved that, in the event the Highway Committee found the participation of Iowa County as a co-plantiff with the State of Wisconsin advisable in this suit, the Board Chairman and County Clerk be authorized to file the necessary claim or claims and that Resolution (No. 7) be approved.

Sup. Swenson seconded the motion. Carried.

The time was past 10:30, the scheduled time for the tour to begin and no one else was waiting to appear before the Board, therefore the Chairman requested the desire of the Board.

Sup. Grunow moved to proceed with the tour.

Sup. Scheidegger seconded the motion. Carried.

The membership boarded a bus and proceeded north. An inspection was made from the bus of the jail property and the lands adjacant to it with particular regard to the possibility of the expansion of the highway shop property. The Board visited the highway shop being advised of the improvements, storage, operation and existing facilities. After traveling north on Highway 23 to County Trunk ZZ an oil application direct to gravel to control dust was inspected to County Trunk Z and again north where a corner improvement is planned. The cost of oil application was $585.45 per mile on the "ZZ" project compared to an estimated cost of $237.00 per mile for calcium chloride but it is more permanent and provides a base for permanent black topping. The group traveled to the Spring Green for a 'dutch luncheon'. The next area viewed was across Wyoming Township to County Trunk C in the town of Clyde to County Trunk NN east to Highway 130 to County Trunk I where a county financed project for construction is underway. Due to the wet weather it was not possible to travel the entire stretch of construction and it was necessary to travel other roads to reach 'I' at a point farther west, traveling 'I' again to Highway 80 and into Highland for a brief stop at the county garage in Highland and the Village of Highland, where a discussion was held on the petition of Highland area residents for the improvement of 'I' south of Highland. After a short stop the group proceeded to an improvement project underway on Highway 80 south east of Highland and then back to County Trunk 'I' where a project is proposed for 'Addisons Corner' then to Montfort and east on Highway 18 to view the residential expansion on the south side of Cobb and to the county operation at 'Rohowetz Quarry'. At this stop the quarry and hot mix plant were explained. The final stop was the new location of the Dept. of Social Services in the Leffler Building.

The Highway Committee Report (No. 8) on the proposed improvements for 1969 was presented.

REPORT OF THE HIGHWAY COMMITTEE ON HIGHWAY PROGRAMS TO BE UNDERTAKEN IN 1969 ON FEDERAL AID PROGRAMS AND DIRECT COUNTY FUNDS.

To the Honorable Board of Supervisors of Iowa County

Gentlemen:

The Highway Committee, after careful consideration of the many petitions for highway improvement, have proposed for the County Board's approval, to reconstruct and improve the following County Trunk Highways by F.A.S. Funds, with County Forces and by contract to the extent of available funds.

C.T.H."Q"from S.T.H. 39, North to completed section.
C.T.H."Z" from C.T.H. "ZZ" North 1.6 Miles to eliminate a hazard.
C.T.H. "DD" from Pleasant View Church East to C.T.H. "W".
C.T.H. "D" from S.T.H. 39 South to Waldwick.
C.T.H. "N" from C.T.H. "NN" South to C.T.H. "I".
C.T.H. "NN" from S.T.H. 130 North to C.T.H. "N".
C.T.H. "HH" North from C.T.H. "K" to C.T.H. "H".
C.T.H. "T" from end of black top North to C.T.H. "H"'
C.T.H. "PP" from C.T.H. "I" North to C.T.H. "P".
C.T.H. "X" from C.T.H. "G" West to C.T.H. "XX".
C.T.H. "Y" from S.T.H. 151 to S.T.H. 191 as far as funds are available.

We propose to Seal Coat or Resurface the following County Trunk Highways: "E" — "G" — "XX" — "K" — "Q" & "A".

We plan to apply liquid calcium chloride to all the gravel roads on the County system until bituminous surfaced.

Most of the listed County Trunk Highways will not be extensively relocated and constructed in order to facilitate the demand for dust free surfacing. Neither do we plan on applying for Federal Aid due to the strict minimal standards required by the Bureau of Federal Roads.

Some of these projects will be given preference where we have the full cooperation of the property owners in moving fences back to the four rod right of way. We plan on keeping right of way purchases to the very minimum and under no circumstances are we going to exercise our eminent domain privileges for condemnation. The Committee has ample opportunities to provide the necessary improvements where they will not be involved with right of way problems.

We realize unexpected emergencies may take precedent over some of the proposed recommendations.

Resolution (No. 10) on Comprehensive Regional Planning was presented. Chairman Scullion explained that meetings have been held for the mentioned counties and that the committee believed benefit could be gained from such planning.

Whereas, several counties in southwest Wisconsin have common problems and opportunities, and there is a need for comprehensive area

planning to give guidance to the individual counties in the area of land use, zoning, forestry, recreation, transportation, industry, commerce, and cultural opportunities, and

Whereas, progress is being inhibited by a lack of comprehensive or basic planning as required by State and Federal programs, and

Whereas, representatives of the County Boards of Iowa, Green, Lafayette, Grant, Richland, and Sauk Counties have met several times and have indicated the need and desire for comprehensive planning in southwest Wisconsin,

Now, therefore, be it resolved that the Governor of the State of Wisconsin be requested to designate the counties in southwest Wisconsin as a Regional Planning area, (exact boundaries to be determined by agreement of the counties, Department of State and Local Affairs and the Governor's Office) and that this designation be done as soon as possible: and that costs for area planning be a part of the budget of the State of Wisconsin, and that the counties involved in specific areas of area planning share in the cost of such planning.

Mr. Clark stated that in 1968 only 4 or 5 county youngsters attended but he believed that about 20 would be eligible. Some parents assist with the operating cost.

Sup. Hicks explained the outlay costs recommended for the Sheriff's Dept. The amount included $1,200.00 for a radar set. Sup. Roelli stated that speed was a major factor in accident cause. The Law Enforcement Committee is on record against high speed chases by officers. Sup. Hicks further explained that the Sheriff has started to organize a posse and moved that Iowa County authorize the posse not to exceed 30 members.

Resolution (No. 12) regarding Twin Parks Watershed Area Channel improvement was read.

Chairman Scullion stated that because he wanted all to be heard on the matter there were several to appear. He called on Curt Lindholm of the State Soil Conservation and asked him to present the technical information on the proposal. Mr. Lindholm stated the average annual cost would be $1,214.00. The construction cost of $100,000.00 would be paid out of federal funds.

Mr. Tom McCutchin appeared in regard to the project and presented an agreement which had been signed by all but one property owner. Mr. McCutchin had contacted the owners to obtain the agreement.

Sup. Roelli asked about the dredging costs which were estimated to be necessary in ten years.

Mr. Lindholm estimated the cost to be five to six thousand dollars.

Sup. Branger asked if such a project was contrary to conservation practices in straightening a stream. Mr. McCutchin assured him it was not.

Mr. Lindholm said this was a prime watershed in the State and was also in line for some national recognition. In response to a question by Sup. Holland, Mr. Lindholm stated that a watershed project was not necessary to have channel improvement.

The Chairman asked the Clerk to read an opinion which had been requested from the District Attorneys office. Mr. Lindholm stated that there should be no damage to property at the lower end of the project due to the slowing of water discharge.

Sup. Hogan stated that the District Supervisors did not have taxation powers! In response to a question by Sup. Stenseth, Mr. McCutchin stated that the one owner who did not sign was considering selling his property.

----O----

Chairman Scullion called on Sup. Holland, a member of the Rural Planning Committee designated as the Zoning and Planning Committee to present the recommendations of said Committee on the matter of total county planning.

Sup. Holland explained the proposal of the Green Engineering Company regarding the work involved in such a project and the estimated cost. It was stated by the Engineering Firm representatives that $5700.00 should be the maximum amount needed to bring the ordinance to the point of a public hearing.

A discussion on the merits followed.

Sup. Kritz moved to instruct the Committee to explore further the matter and make a committment for the project with a report at the April meeting.
