MANURE STORAGE CLOSURE APPLICATION

**All manure storage facility closures shall meet all standards outlined in Natural Resources Conservation Service Code 360.
Nonrefundable review fee is \$350, payable to Iowa County Planning

Applicant's name: _____ Phone/email _____

Site of facility: ___1/4 ___1/4 S___-T___N-R___E Town of: _____

Site address: _____

Approximate size of facility: _____ ft wide by _____ ft long by _____ ft deep

Approximate facility age: _____ years Are original construction plans available? ___Y ___N

Last year of use: _____ Anticipated closure date: _____

Closure plan information

1. Check one: ___ Unit contains waste (attach plan); or ___ Unit is empty. If waste is presently in the storage unit, provide a plan for removal and spreading of the waste.
2. Check one: Is there a ___ concrete liner, or ___ clay liner, or ___ synthetic liner, or ___ no liner. Does the site grade allow water to drain off the surface: ___ yes ___ no. If not, please provide a plan for removal, reuse or proper disposal.
3. Soil saturated with waste from the manure storage facility sides and bottom must be excavated and land spread. The estimated depth of contaminated soil is ___ feet.
4. All disturbed areas must be covered with topsoil, seeded with a grass mixture, and mulched. This does not apply if an alternative use of the site is authorized under the closure plan approved by the county as part of the permit.

Will site require topsoil, seeding and mulch: ___ yes ___ no

If alternative use is planned, please describe: _____

Please return this application to the Iowa County Office of Planning & Development along with the nonrenewable review fee of \$350, payable to Iowa County Planning and:

- (a) A general location map drawing of the manure storage facility which shall include:
 - 1. The location of the manure storage facility in relation to buildings, homes, property lines, roads, wells, karst features, public or private drainage ditches and creeks, flowages, rivers, streams, lakes, or wetlands within one thousand (1000) feet of the existing facility.
 - 2. The scale of the drawing and an arrow indicating north.
 - 3. The date the general location map was prepared.
- (b) A description of the method and specifications in transferring manure into and from the manure storage facility to ensure proper closure of transfer systems.
- (c) Provisions to remove or permanently plug the manure transfer system serving the manure storage facility.
- (d) Provisions to remove and properly dispose of all accumulated manure in the manure facility in compliance with applicable Technical Standards.
- (e) For all waste impoundments, plan requirements and provisions shall be in compliance and consistent with applicable Technical Standards.
- (f) The manure storage facility may be converted to other uses, where it is demonstrated the conversion will not result in a degradation of ground and/or surface waters or be a threat to public health, safety or general welfare. Approval of the proposed use may be required under general zoning regulations.
- (g) Manure storage facility closures and conversions shall implement safety measures to ensure the protection of the public from hazardous conditions.
- (h) Any other additional information required by the County to protect water quality and achieve compliance with the requirements of this Ordinance.

By signing below, I understand and agree to follow the above plan as well as NRCS Standard 360 when abandoning (closing) this storage facility. I also agree to cooperate with Iowa County staff to assure the adequate protection of groundwater resources during the process.
